TAIPEI MEDICAL UNIVERSITY

第十八屆校友專題演講

邱建元 博士

Ken C. Chiu, MD, FACE, FACP

Professor, Endocrinology

- City of Hope National Medical Center and Beckman Research Institute, U.S.A.
- Harbor-UCLA Medical Center, U.S.A.

Conundrum of vitamin D and calcium supplement.

The different perspectives of endocrine versus autocrine/paracrine function of vitamin D lead to significant disagreement among various professional organizations. The difference mainly arises from the target of 25-hydroxyvitamin D level and threshold effect of vitamin D. There is much less disagreement among various professional organizations. However, the relative importance of calcium versus vitamin D supplement will be discussed with emphasis of recently recognized adverse effects associated with calcium supplement.

日期：2017年3月14日

演講時間：10:00~11:00

討論交流：11:00~12:00

地點：醫學綜合大樓後棟8樓 徐千田廳
(臺北市信義區吳興街250號)

學生及校外人士
報名系統

校內教職員
報名系統

主辦單位： 臺北醫學大學醫學院醫學系內科學科新陳代謝科  臺北市立萬芳醫院
學分認證：北醫大教職員教育時數-研究2小時；醫事人員積分認列專業課程2.4積分(西醫師、護理師/士、專科護理師及物理治療師(生))
