

Professor Daguang Wu
Vice-President of Xiamen University
2010.11

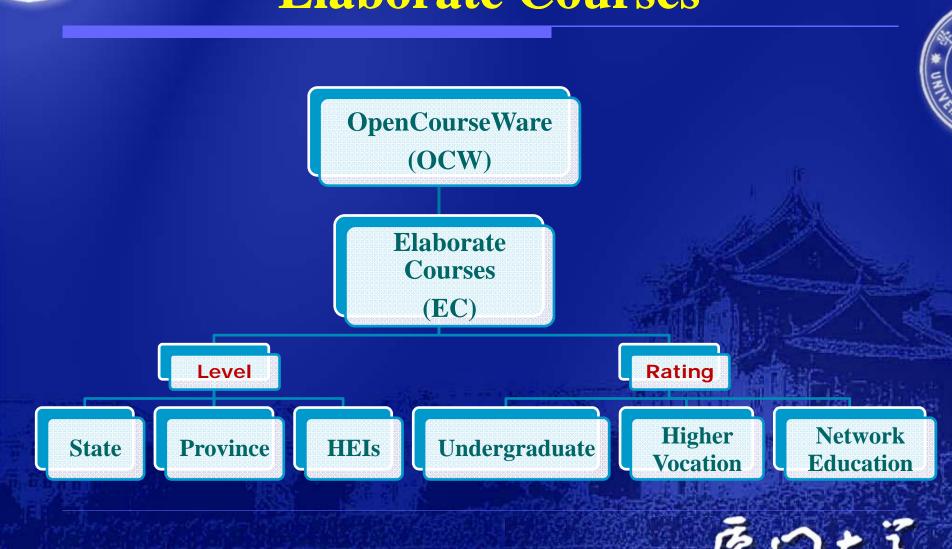

#### **Outline**

- 1. Open Course Ware and Elaborate Courses
- 2. Progress and Practice of Elaborate Courses (EC) in Mainland China
- 3. Progress and Practice of Elaborate Courses (EC) in Xiamen University (XMU)
- 4. Achievements and Problems

# 1.Open Course Ware & Elaborate Courses

## 2. Progress and Practice of EC in Mainland China

Scale of EC

Distribution of EC

Construction on network resources of EC

Assessment system of EC

度つれず

#### 2.1 Scale of EC

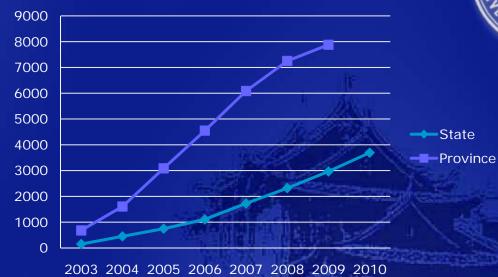

Level 1 State, 3693

Level 2 Province, 7879

Level 3 HEIs, over 10000

Three-level system of EC in Mainland China

Development of the amount of EC: 2003-2010

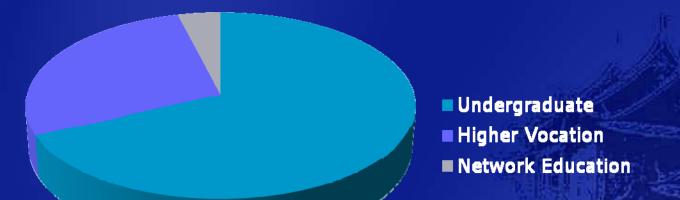

Data Source: <a href="http://search.jpkcnet.com/crsp/searchCourse.do">http://search.jpkcnet.com/crsp/searchCourse.do</a>?-method=searchCourse.

#### 2.2 Distribution of EC—ratings

Distribution of rating of state-level EC

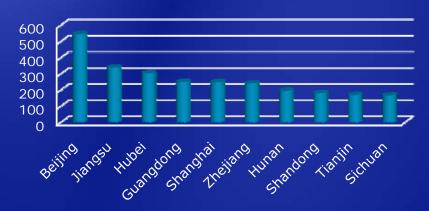

Data Source: <a href="http://search.jpkcnet.com/crsp/searchCourse.do">http://search.jpkcnet.com/crsp/searchCourse.do</a>?-method=searchCourse.

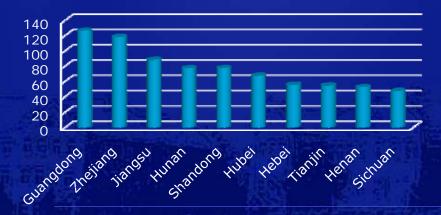

#### 2.2 Distribution of EC——areas

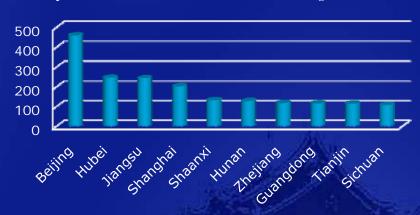

Top 10 Provinces with the amount of state-level EC

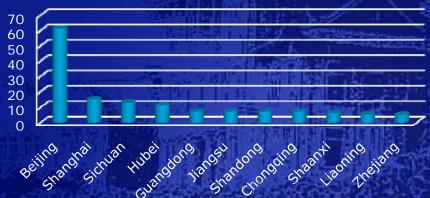

Top 10 Provinces with the amount of state-level higher vocational EC

Top 10 Provinces with the amount of state-level undergraduate EC

Top 11 Provinces with the amount of state-level network educational EC

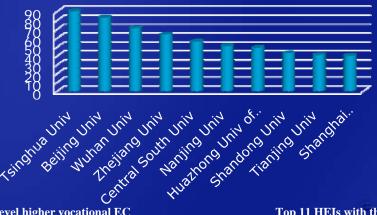

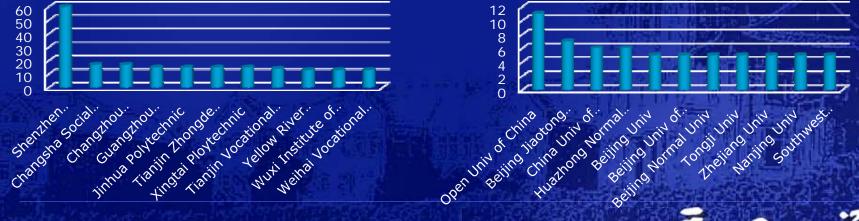

#### 2.2 Distribution of EC——HEIs

Top 11 HEIs with the amount of state-level higher vocational EC

Top 11 HEIs with the amount of state-level network educational EC

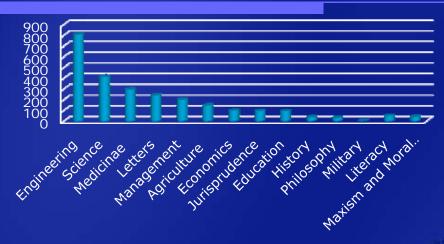

Data Source: http://search.jpkcnet.com/crsp/searchCourse.do?-method=searchCourse.

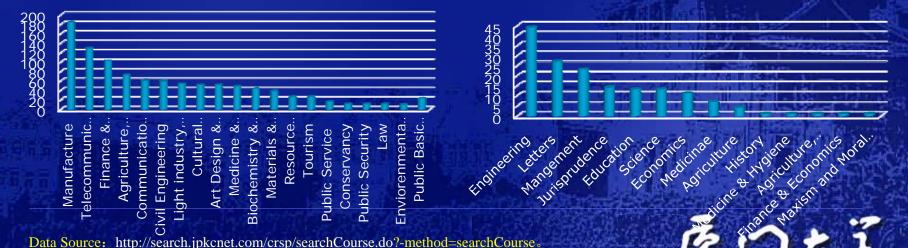

#### 2.2 Distribution of EC——disciplines

Distribution of disciplines of state-level undergraduate EC

Distribution of disciplines of state-level higher vocational EC

Distribution of disciplines of state-level network educational EC

## 2.3 Construction on network resources of EC

Websites: "Website of state-level EC" (http://www.jpkcnet.com)

"Repository of state-level EC" (http://jpkc.seu.edu.cn)

"Resources of state-level EC" (http://www.jingpinke.com)

"Sharing system of EC" (http://cers.jpkcnet.com)

"Center for experimental teaching" (http://syzx.jpkcnet.com)

- Contents of EC: curriculum, materials for reference, electronic teaching plan, video lectures, teaching design, teaching cases, experiment and practices, examples and exercises, documentation, etc.
- □ Document Format: common webpage, Word, PPT, RAR, Flash, etc.
- ☐ Feedback & Assessment system: questionnaire; online interactive test, exercises on the papery textbook & former test paper

#### 2.3 Construction of network resources of EC

\*Limited visits, messages and communications between teachers and students

#### 2.4 Assessment system of EC

#### (1) Assessment procedure

Application

Assessment

Bulletin

- Provincial educational administration
- Association of Discipline Guidance
- Qualification inspection
- Assessment for online teaching resources
- Final judgment on experts' meeting

- Courses bulletin
- Announcement of result

#### 2.4 Assessment system of EC

#### (2) System of assessment criteria

At the beginning of the implementation of EC assessment, regular undergraduate and higher vocational education shares the same criterion system; with the development of assessment work, the system takes on multi-level developing trends. Now, the undergraduate EC, higher vocational EC and network educational EC have their own criterion systems.

- \*Combination of quantitative and qualitative assessment
- \*Centesimal system
- \*Two parts: comprehensive assessment;
  characteristic, policy support and radiating share

Example: "Criterion system of assessment for state-level undergraduate EC: 2009"

#### 3. Progress and Practice of EC in XMU

#### Discover Xiamen University (XMU)

- □ Facts
- Founded in 1921 by Mr. Tan Kah- Kee
- Comprehensive key university
- X National "211 project" and "985 project"
- One of China's most beautiful

University logo

#### 3.1 Scale of EC in XMU

#### The amount of EU in XMU

So far, XMU has 29 state-level ECs and 84 province-level ECs, which are distributed in 19 colleges and 2 teaching departments.

The ranking of XMU is 21 among the universities directly affiliated with the Ministry of Education.

	Callana & Danastruanta	EC			
No.	Colleges & Departments	State	Province		
1	Materials	1	2		
2	Law	1	6		
3	Public Affairs	1	2		
4	Management	2	3		
5	International Relations	0	0		
6	Oceanography & Environment	3	5		
7	Chemistry & Chemical Engineering	5	9		
8	<b>Architecture and Civil Engineering</b>	0	2		
9	Economics	7	12		
10	Humanity	2	11		
11	Software	0	1		
12	Life Sciences	3	5		
13	<b>Mathematical Sciences</b>	2	2		
14	Department of PE	0	1		
15	Foreign Languages & Cultures	1	4		
16	Physics and Mechanical & Electrical Engineering	1	6		
17	Journalism & Communication	0	3		
18	Information Science and Technology	0	4		
19	Medical College	0	4		
20	<b>Arts Education</b>	0	2		
Total	XMU	29	84		

#### Distribution on network of EU in XMU

XMU built its own website for EC in 2004, which provides different levels of EC for students; some colleges of XMU have their own EC website as well.

There are plenty of teaching and learning resources, such as video lectures, references of materials, tests, etc..

2007年精品课程申报 2008年省级精品课程申报 2008年国家级精品课程申报 2009年省级精品课程申报 国家级精品课程 省级精品课程

Remember, if you have any questions drop me an rbhuang@xmu.edu.cn.

#### 3.4 Teaching Form of EC in XMU

Students browse and learn the EC resources on the website by themselves; only a few courses provide the interaction of teachers and students.

Example: "Online resources of Advanced Algebra"

#### **IV Achievements and Problems**

#### 4. 1 Achievements

The EC construction in Mainland China is a kind of OER project of Chinese characteristics. It took and developed the core idea of opening and sharing, full played the comprehensive functions of educational information technologies, shared the high-quality educational resources, and promoted and updated the educational ideas and teaching contents.

The EC construction achieve a break-though in the scale and form of educational resources opening & sharing: it has initially formed three levels - state, provinces and universities, and basically realized the openness to all HEIs in Mainland China; the number of ECs is up to 10,000; and all the undergraduate, higher vocational and network educational ECs have reached a certain scale.

#### **IV** Achievements and Problems

#### 4.2 Problems

- (1) unbalanced construction obvious gaps between different HEIs, areas and disciplines;
- (2) simple construction methods insufficient application of advanced information technology;
- (3) insufficient follow-up construction neglect of curriculum sharing and application;
- (4) incomplete assessment system a vague evaluation criterion system.
